À propos du sexisme

Le sexisme est une attitude discriminatoire fondée sur le sexe d'une personne. Il s'agit de la conséquence d'une organisation patriarcale de la société. C'est à dire basé sur l'idée que le sexe masculin est supérieur. L'injure "salope", par exemple

Il s'agit de la conséquence d'une organisation patriarcale de la société. C'est à dire basée sur l'idée que le sexe masculin est supérieur. Il s'appuie des préjugés et la croyance que, dans la majorité des situations, les femmes sont inférieures aux hommes. Le sexismé est lié aux préjugés et au concept de stéréotype et de rôle de genre, pouvant comprendre la croyance qu'un sexe ou qu'un genre serait intrinsèquement

The screenshot shows the SAS mobile application builder interface. On the left, there's a sidebar with navigation links: Dashboard, Content, Community, Notification, Statistics, My App (which is selected and highlighted in blue), Publish, Settings, Extensions Store, and a user profile icon. Below the sidebar is a circular button with a question mark. The main area has a title bar with 'SAS' and a preview window showing a mobile screen with two cards: one for 'journée dédiée contre le sexisme' (Nov 25) and another for 'Le 17 janvier 1975, la loi autorisant l'interruption volontaire de grossesse' (Jan 17). Above the preview is a zoom control (minus, 68%, plus) and an 'Edit' button. To the right of the preview, the title 'My App' is displayed above five cards:

- App style**: Design and interface settings.
- Structure**: Sections and navigation.
- App icon**: Icon visible in the stores and on home screens.
- Launch screen**: First screen displayed when the app starts.
- Themes Library**: Wide selection of designs and visual styles.
